WORK EXPERIENCE

Epic Systems • Verona, WI • 11/2022 - 06/2025

Software Developer

- Designed and implemented end-to-end features using **Python, TypeScript, SQL, C#**, and Visual Studio Code, contributing to enterprise-scale healthcare applications.
- Modernized legacy .NET/ASP applications into React/Redux-based architecture, improving maintainability and enabling modular future enhancements.
- Collaborated with cross-functional teams to conduct **integration testing** across multi-tier systems, ensuring compatibility and performance.
- Spearheaded the integration of ambient **AI technologies** by working directly with vendors, validating APIs and system stability through automation and hands-on testing.
- Debugged and resolved critical production issues by analyzing logs, running test scenarios, and implementing hotfixes, enhancing system reliability and user satisfaction.
- Mentored new hires by introducing them to Epic's tools and processes and leading paired programming sessions.
- Participated in Agile ceremonies, including sprint planning, retrospectives, and code reviews, upholding industry best practices and high coding standards.

ScribeAR • 05/2021 - 05/2022

Research Associate

- Enhanced an AR-compatible captioning app with real-time transcription using **Microsoft Azure APIs, React/Redux**, and the **Web Speech API**.
- Conducted **functional and performance testing** on real-time UI components with a focus on accessibility and latency reduction.

PennyMac • 06/2021 - 08/2021

Dev Ops Engineering Intern

- Responded to infrastructure issues during on-call rotations, including performance regressions and deployment failures.
- Built tools and scripts to support **AWS** infrastructure (EC2, S3, RDS) and improved CI/CD pipelines.
- Collaborated on CI/CD pipeline improvements to enhance build reliability and reduce production incidents.

EDUCATION

Bachelor of Science in Computer Engineering

University of Illinois at Urbana-Champaign

SKILLS

Automation & DevOps: Automation scripting, CI/CD pipelines, GitHub Actions, VS Code

Languages: C, C#, C++, Intersystems Cache, Java, JavaScript, JSON, .NET, Python, SQL, TypeScript, XML

Frameworks & Technologies: ASP.NET, AWS, Docker, Microsoft Azure, React, Redux

Testing Tools: Chrome DevTools, Git, JIRA, Postman
